### **What is Fauser Energy Resources' EFT program?**

Our EFT program is a customer authorized payment system that enables invoices to be paid **electronically** with the guarantee that they will be paid on the due date. This procedure has been used quite frequently in the past years.

### **Why is Fauser Energy Resources promoting the program?**

By using this procedure, it enables us to anticipate the receipt of funds and manage our cash flow accordingly. It saves you bank processing charges, saves you accounting costs, eliminates the possibility of a lost payment through the United States Postal Service, and insures that your payments are made on a timely matter, thus benefiting you by assuring that you have the balance of your credit limit to work with. Terms are typically NET 10 days from ship date.

### **How does the system work?**

You will continue to receive invoices for each purchase as normal. In addition to the actual invoice, you will receive a **Pre-Draft Notification** 1 to 2 days prior to the actual draft, showing invoice numbers and amounts of the draft.

### **How do I know that the bank is paying these drafts correctly?**

The electronic payment will be listed along with your regular checks on your statement.

### **What do I do if there is a discrepancy on the draft notice?**

If there is a discrepancy, or a question on any draft notice, please contact Bill Pfister at 1-800-328-7371 immediately. If there is indeed an error on our part, a correction will be made to your account in a reasonable amount of time. If you do not have future drafts scheduled, other arrangements will be made to compensate you for the error.

### **What happens if a draft comes due on a Saturday, Sunday or a holiday?**

If a draft is due us on a Saturday, it will be drafted on Friday, if it is due on a Sunday or a holiday, it will be drafted on the following bank business day.

**What will the EFT program cost me?**

There is no cost to you from us! This is a service that we offer to you. There probably is no cost charged to you by your bank either, but should be researched by you with them. If any, it is probably less costly than the manual check processing charges that they currently charge you.

**Can I use the EFT program with my current checking account?**

Yes. The system can be used with your present account, or you may wish to set up a separate account. The EFT program is intended to be used with only one bank and one account though. If an account is changed, we need thirty days advance notification to amend our system.

**What if I have a credit balance?**

Net credit balances will be issued to you on the next scheduled draft. If this period of time is not satisfactory, we can issue a payment to you for the net credit amount by check, and you can deposit it to the appropriate bank account.

**How do I get started with this program?**

There are two simple steps that need to be taken:

- 1:** Execute the simple agreement included with this packet of information, to be signed by you. This will give us the authority to initiate the program.
- 2:** A voided check or deposit slip should accompany the agreement to ensure that the bank routing information is correct.
